

COMPANY PROFILE

康可油棕园有限公司
Kang Ke Palm Sdn.Bhd.

Lot 69,70,71, Sibuga Industrial Centre, Jalan Lintas Sibuga 90000, Sandakan, Sabah

ABOUT US

Start operating on 2016, where our first headquarters is located at IJM area Mile 6 Sandakan, Sabah. This company's main business is operating as a Dealer Fruits (DF), where the collecting centre is located at Kinabatangan. Over the past years, we have managed more than 10 other Dealer Fruits (DF) to assist in terms of a good ramp managing service.

In addition, we also provide management service to the planters for their plantation, farms and fruit orchard as well. To ensure that our clients' plantations or farms are well managed, we also provide manpower to ensure that management processes such as cleaning and monitoring can run smoothly. In 2021, our head office has already moved to Sibuga Industri Mile 8, Sandakan.

VISION & MISSION

VISION

To be a premier company with focus on positive contribution to economic development and agricultural growth of the country.

MISSION

Supporting the development of agriculture through the wholesale of fertilizer and agrochemical products to support agricultural activities for crop production on a fee or contract basis.

OUR SERVICE

Dealer Fruit Service

We serve as an intermediary between the smallholders and the millers. We strive to be efficient so that the FFB sent to the mills within 24 hours after harvesting remains in good quality.

Plantation or Palm Management Service

We strive to make and implement the decisions involved in organizing and operating a farm for maximum production and profit.

Manpower

We strive to help in growth and diversification of our client's plantation or farm. Through manpower planning, human resources can be readily available and they can be utilized in best manner.

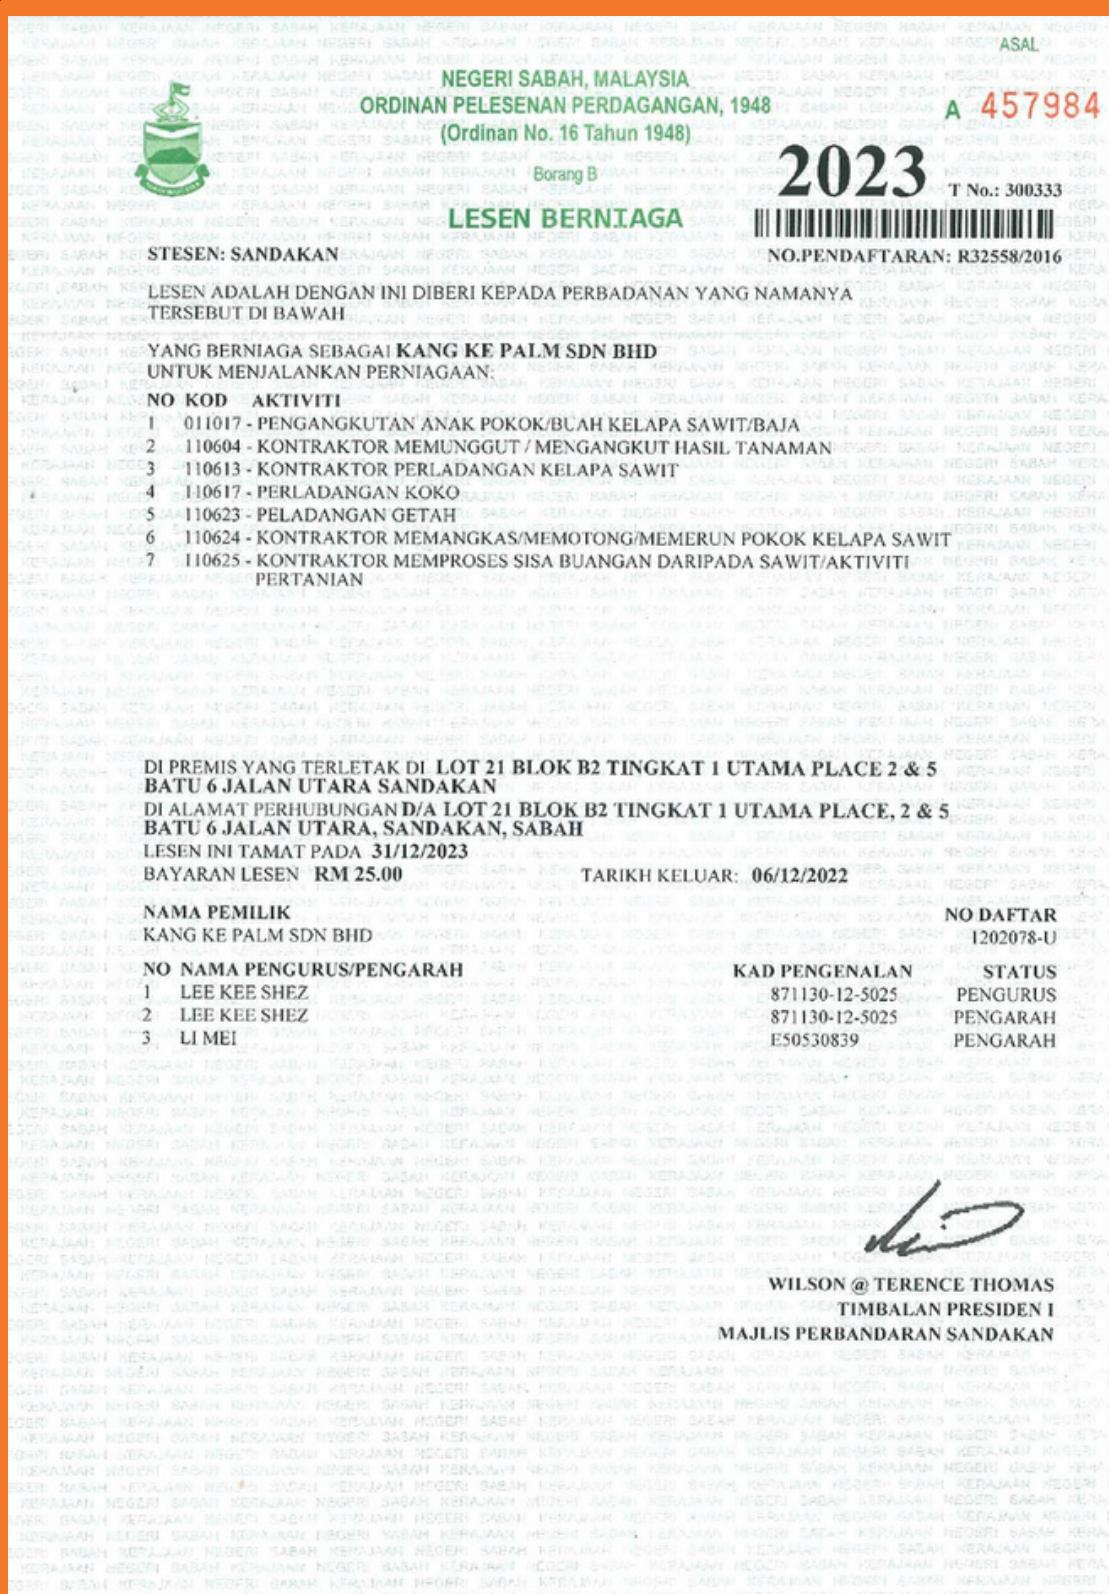

**Eco-Farm Project with UMS, Sandakan.
"Application of Additional Trace Elements to Soils to Improve Oil Palm Yield, Soil Health and Soil Fauna Diversity (code: LPS2112)"**

Kang Ke Palm Sdn Bhd has been involved in a project with EcoFarm UMS, Sandakan and played a role in donating in-kind funds in the forms of field labor and transport. This project has been running since 2021 and will end in 2025 (5 years)

The aim of this project is to improve soil nutrient management in oil palm agro-ecosystems through better (holistic and site specific) information and extension to oil palm planters with emphasis on sustainability indicators such as soil trace element enrichment and cost effectiveness.
